

## Quiz 1

Ques 1. Which SQL Statement is used to create a new database?

- CREATE DB Statement
- CREATE DBS Statement
- **CREATE DATABASE** Statement
- ADD DBASE Statement

Ques 2. Which SQL Statement is used to create a new table?

- **CREATE TABLE** Statement
- CREATE TB Statement
- ADD TABLE Statement
- ADD NEW Statement

Ques 3. Which SQL Statement is used to select records?

- **SELECT** Statement
- SELECT RECORDS Statement
- SELECT REC Statement
- SELECT RECORD Statement

Ques 4. Which SQL Statement is used to select and return only distinct values from a table?

- SELECT VALUES Statement
- SELECT Statement
- DISTINCT Statement
- **SELECT DISTINCT** Statement

Ques 5. Which SQL Statement is used to insert records in a table?

- **INSERT INTO** Statement
- INSERT Statement
- INSERT RECORDS Statement
- INSERT VALUES Statement

Ques 6. How to fetch all records from a table "Employee"

- SELECT INTO FROM Employee
- SELECT ALL FROM Employee
- SELECT \*\* FROM Employee
- **SELECT \* FROM Employee**

## Quiz 2

Ques 7. How to order a column "Salary" in Descending Order in SQL?

- ORDER BY Salary;
- **ORDER BY Salary DESC;**
- ORDER Salary DESC;
- ORDER Salary;

Ques 8. Which SQL Operator is used to display records only if both the conditions are TRUE?

- OR Operator
- NOT Operator
- LIKE Operator
- **AND Operator**

Ques 9. Which SQL Operator is used to display records only if any one of the conditions are TRUE?

- LIKE Operator
- IN Operator
- **OR Operator**
- AND Operator

Ques 10. How to select all the records from a table named "Employee" where salary is not 5000?

- SELECT \* FROM Employee where Salary!=5000;
- **SELECT \* FROM Employee where not Salary=5000;**
- SELECT \* FROM Employee where Salary~=5000;
- None of the above

Ques 11. Which SQL Operator is a shorthand for multiple OR conditions?

- **IN Operator**
- LIKE Operator
- AND Operator
- None of the above

Ques 12. Which SQL Operator is used to find values in a range?

- RANGE Operator
- **BETWEEN Operator**
- RANGE\_VALUES Operator
- None of the above

Ques 13. How to select all the records from a table name "Employee", where the value of the column "EmpName" ends with "I"

- SELECT \* FROM Employee where EmpName LIKE '%i%'
- SELECT \* FROM Employee where EmpName LIKE '\_i'
- SELECT \* FROM Employee where EmpName LIKE 'i\_'
- **SELECT \* FROM Employee where EmpName LIKE '%i'**

## Quiz 3

Ques 14. How to get the minimum salary from a Salary column in a table named "Employee"

- SELECT Salary.min() FROM Employee
- **SELECT min(Salary) FROM Employee**
- SELECT minimum(Salary) FROM Employee
- SELECT Salary.minimum() FROM Employee

Ques 15. Which SQL function is used to count the number of rows?

- **COUNT() Function**
- ROWNUM() Function
- ROWNUMBER() Function
- COUNT\_ROW() Function

Ques 16. Can a Primary Key Column have NULL values?

- Yes
- **No**

Ques 17. A child table is a table with a \_\_\_\_\_ key?

- **Foreign Key**
- Primary Key

## Quiz 4

Ques 18. Select the top 50% of employees from a table named "Employee" in SQL?

- SELECT limit 50 percent \* FROM Employee;
- SELECT fetch first 50 percent \* FROM Employee;
- SELECT 50 percent \* FROM Employee;
- **SELECT top 50 percent \* FROM Employee;**

Ques 19. Which SQL Statement is used to backup an SQL database in a local directory?

- BACKUP DB Statement
- **BACKUP DATABASE Statement**
- BACKUP Statement
- BACKUP DBASE Statement

Ques 20. Which statement in SQL is used to add, delete or modify columns in an existing table?

- MODIFY TABLE Statement
- **ALTER TABLE Statement**
- TRUNCATE TABLE Statement
- None of the Above

Ques 21. Which statement in SQL is used to create a procedure?

- **CREATE PROCEDURE Statement**
- CREATE PROC Statement
- CREATE FUNCTION Statement
- CREATE FUNC Statement

Ques 22. A view is a virtual table created from the actual table, displaying the current result-set?

- **True**
- False
